## JEEP CJ & YJ REAR BUMPER WITH RECEIVER

*P/N: 515 / 50510 / 51510*  
*INSTALLATION INSTRUCTIONS*

### IMPORTANT NOTE:

Bumpers are designed to fit over existing rear cross member support. Do not remove this cross member.

### INSTALLATION:

1. Remove old bumperettes from vehicle.
2. Be sure that area where bumper will be mounted is flat and free of any damage.
3. Install new bumper with enclosed hardware. Tighten 7/16" nuts to 50ft / lbs.
4. Re-torque after your initial test drive.

If you need further assistance installing your product, please contact us by email at [customerservice@warriorproducts.com](mailto:customerservice@warriorproducts.com) or call us at (888) 220-6861.
